PREFACE

Following the recent trend of All Agriculture exams, almost all the questions are issue-based rather than news-based. Therefore, the right approach to preparation is to prepare issues, rather than just reading news. Taking this into account, we have covered monthly current affairs focusing more on 'issues' on a daily basis. This will help you to pick up relevant Agri-news, important updates, current issues etc. compiled by exploring from various ICAR institutes, PIB (Government of India) and other important trustworthy/authentic Agriculture sources. Over time, some of these news items will become important issues.

This monthly edition covers all the important agricultural affairs

from the month of September, 2020

“Any comments and suggestions will be appreciated”
